

Video conferencing that
not only meets your expectations –
it exceeds them.

VIRTUAL PRESENCE™

At last, video conferencing that's so easy to use, simple to connect, and affordable, you'll use it every day.

Three things have stood in the way of effective video conferencing: difficulty connecting, unreliability and cost. But Virtual Presence from BCS Global eliminates all three, in just three clicks of your remote.

Virtual Presence makes video conferencing as easy to use as a mobile phone. In fact, once you've experienced it firsthand, you're likely to make it a daily part of the way you do business.

It's simple to connect, easy to use and affordable – with exceptional video and audio quality. Setting up a conference or joining one already in progress is as easy as three clicks. Plus, we manage the service to ensure its ease-of-use, quality and availability when you need it most, so you can focus on doing business without unnecessary distractions.

From the collaborative abilities of incorporating a virtual whiteboard or Microsoft Office applications – to the convenience of easily connecting people in multiple office locations on different networks, often using unique hardware configurations, Virtual Presence will not only meet your expectations – it will exceed them.

Features	
Unlimited IP Video Calling Plan	Affordable, unlimited usage for all customers. No “per-call” costs, “per-minute” charges or hidden fees.
Customized On-Screen Layout	View in standard quad-screen format, presenter mode or split-screen – or choose from over 30 other unique screen formats.
Point-to-Point and Multi-Point Calling	Make one-to-one video calls or communicate with multiple people in different locations – with just three clicks of the remote.
Virtual Meeting Rooms	Meet with anybody from anywhere, no matter their connectivity or device. Connect IP and ISDN participants, audio-only attendees and more.
Endpoint Directory Management	Complete directory/phone book management ensures all endpoint listings are consistent and up-to-date, and delivers instant connections without remembering IP addresses or phone numbers.
Content Delivery and Presentations	Have full collaborative sessions – use it for showing presentations, reviewing spreadsheets, creative designs, or contract negotiations.
Reduced International Calling Rates	Save up to 65% on traditional international video conferencing. You can even reach difficult locations in Asia-Pacific, the Middle East, South America and Africa.
IP to ISDN Connectivity	Bridge the gap between IP and ISDN video conferencing seamlessly. Connect your own offices or use it to work more effectively with customers, business partners or suppliers.
24/7 Customer Service	Highly trained and professional staff are always available to assist you – both domestically and worldwide – no matter what questions you may have or services you may need.
“Quick Dial” Live Video Help	Instant video access to live video help. Available for customer service support or as a video operator providing information and additional services.
High Definition Endpoint Support	Complete HD endpoint support and HD bridge access, ensuring your image quality is always at the level you expect.
